

The mission of the YWCA is to Eliminate Racism and to Empower Women.

About YWebCA

Goals

Target Population

17+ | **Women, persons of color, and/or low-income.**

Ability to work in a group setting and a commitment to the program completion.

What is YWeb

Program of YWCA

Students attend workshops, networking events and private tours of local tech companies.

Instructors teach website development skills (HTML5/CSS, JavaScript & UX & UI design), with additional languages as needed.

Upon successful completion of the course and graduation, students will be placed in an internship.

Real stories and experienced from real students who've gone the program and completed the YWeb Career Academy. Some have chosen to share their experiences, and outlooks and general information.
